RoboMarkets
THE FUTURE OF INVESTING

VPS for Your MT5 Account – at RoboMarkets' Expense!

"Sponsored VPS" offer for RoboMarkets Global Ltd clients

RoboMarkets
THE FUTURE OF INVESTING

What is “Sponsored VPS”?

Do you want your Expert Advisors in MetaTrader 5 to work continually? Or are you looking for an uninterruptible way to copy signals? The best solution for you is a VPS server.

Fulfil the offer conditions, order a MetaQuotes VPS, and use it absolutely for free!

Why MetaQuotes VPS?

MT5 integration

You can order and set up a MetaQuotes VPS directly from your trading terminal in just a few clicks. After you set up your VPS, all EAs installed in your terminal will run uninterrupted. No need to reinstall the terminal, set up an EA, and then interrupt its operation.

24/7 operation

Unexpected internet disconnections or power cuts won’t worry you anymore. Your EAs and subscriptions to signals will operate 24/7 even if MetaTrader 5 on your PC is off.

Minimum network delays

MetaQuotes VPS is chosen for you based on proximity to a trading server with a minimum ping in order to minimise network delays when submitting orders.

RoboMarkets
THE FUTURE OF INVESTING

Conditions of the “Sponsored VPS” offer

1. The “Sponsored VPS” offer is available only to RoboMarkets Global Ltd clients until December 31st, 2027.

2. **To participate in the offer, a client has to fulfil any of the following conditions:**

   2.1. Deposit at least 500 USD (or equivalent in the account currency) to one of their MT5-based accounts.

   2.2. Have at least 500 USD (or equivalent in the account currency) on one of their MT5-based accounts at 00:00 AM (server time) on the first calendar day of the month.

3. A trading account of the client who meets one of the conditions will be connected to the “Sponsored VPS” service.

4. To activate their VPS server, a client has to:

   4.1. Log in to MetaTrader 5 and connect to their account.

   4.2. Go to the VPS tab.

   4.3. Choose “Free - for 1 month, complimentary of your broker” from the list of payment options.

   4.4. Order the server.

5. The “Sponsored VPS” service is by default provided until the end of the current calendar month.

6. To renew the service, a client’s trading account participating in the offer must have at least 500 USD (or the equivalent in the account currency) in the balance and one closed position at the end of the calendar month. In case these requirements aren’t met (or met partially), a client will be excluded from the offer, and their account will no longer be provided with the “Sponsored VPS” service. To restore access to the service, a client has to fulfil its conditions. The Company has the right to exclude any trading account from the “Sponsored VPS” offer without giving any reasons.

7. The “Sponsored VPS” service is not available to demo accounts.

8. Access to the “Sponsored VPS” service is provided only during the period of the offer.

9. A Client is fully responsible for all results of trading operations performed on their account that participates in the “Sponsored VPS” offer.

10. A Client is fully responsible for any consequences caused by disabling the “Sponsored VPS”
